## **6<sup>th</sup> June: online zoom meeting Community covid Resilience Centre:**

The National lockdown had crippled mobility and human contact to an extent that it has presented a unique challenge to effectively respond to the needs of the SC and ST communities at grassroots. Besides, pre-existing challenges related to health, compromised dietary practices, poor affordability, low educational levels, and lack of awareness calls about healthcare and social services pose obstacles to reach relief and rehabilitation measures to the communities. The meeting was held to take action against the problem faced due to pandemic.
